Krol Krabey Village, Trapeang Chorng Commune, Bakan District, Pursat Province, Cambodia.

About Me

I'm Chanrith Lor, the sixth of eight siblings, driven by curiosity and a love for learning.After finishing high school in 2019, I studied civil engineering at the Institute of Technology of Cambodia. My dedication earned me a scholarship to continue my studies in Thailand, where I gained valuable technical skills and cultural experience.

Skills

AutoCAD, Revit, Etabs, Plaxis 2/3D, CISxSafe, SUTStructure, Microsoft Office, Quantity Take-off, RC Design, Site Coordination, and Construction Planning.

Certificate

- Top of the Class Award
- Thai Obayashi Winter Camp 2024
- Silver Medal, Frisbee,Thailand University Games
- First-ClassHonor, gPBL@SUT vs RMUTI

Languages

- Khmer: Native speaker
- English: Upper Intermediate (B2)
- Thai: Intermediate

Education

Bachelor of Civil Engineering, International Program
Suranaree University of Technology **2021 - 2025**
Cumulative GPAX: **3.81** / Major GPA: **3.82**
Relevant Coursework: Statics, Mechanics of Materials I, Structural Analysis, Timber & Steel Design, RC Design, Soil Mechanics, Foundation, Building Design.

Experience

Chip Mong Land – Phnom Penh, Cambodia
Young Talent, Cost & Planning **July 2025 - October 2025**

- Cost Estimation: Prepared Bill of Quantities (BOQ) by executing accurate quantity take-offs from AutoCAD drawings to finalize project cost estimates in Excel.
- Project Monitoring: Managed and executed Weekly Progress Monitoring and Reporting involving site visits, photos collection, and updating construction status.

Syntec Construction Public Company Limited – Bangkok, Thailand,
Engineering Trainee **February 2025 - June 2025**

- Assisted in the planning and coordination of sheet pile installation for basement construction.
- Conducted daily site inspections and documented progress for structural works.
- Learned hands-on application of temporary work systems in a real-world construction site.

Relevant Experience

Suranaree University of Technology
Capstone Design Project **June 2024 - February 2025**

- Structural analysis using finite element method: model built in Revit, exported to CSIxSap2000/Etabs via CSIxRevit and IFC.
- Precast/prestressed & reinforced concrete designed in CSIxSafe; cold-formed steel roofs in CSIxSap2000.
- Results compared with hand calculations and previous BEC designs.

Academic Award

- Has been awarded the Top of the Class Award in academic years 2021-2024.
- Be awarded a scholarship under Her Royal Highness Princess Maha Chakri Sirindhorn.
- A recipient of a scholarship to study at Dali University in China.
- Obtain the ADF Korea scholarship.
